

# 2015 Pheasant Stocking Information

NOTE: Regulations related to pheasant hunting can be found within the [2015 Small Game Hunting Regulations booklet](#).

The Wisconsin DNR plans to stock 89 properties with approximately 75,000 game farm pheasants during the 2015 fall pheasant season, similar to the 2014 stocking efforts and a significant increase over the stocking levels of previous years. An online mapping application, the Fields & Forest Lands Interactive Gamebird Hunting Tool, offers pheasant, dove, ruffed grouse and woodcock hunters a convenient way to explore suitable hunting cover across the state, including properties stocked with pheasants. Learn more by visiting [dnr.wi.gov](#) and searching keyword “[FFLIGHT](#).” Before hunting pheasants on public hunting grounds, be sure to check the regulations for special requirements that may apply, including 2:00 p.m. weekday closures and hen/rooster hunting rules. Please remember that **a 2015 Pheasant Stamp is required statewide**. Depending on production levels at the state game farm, pheasants are released once prior to the pheasant hunting season and then twice a week for the first two to three weeks of the season. After that, birds are released about once per week until the 9-day gun deer season. Most properties are only stocked once or twice more during December. The number of birds released depends on property size and weather conditions. Additional pheasant hunting opportunities are provided through conservation clubs enrolled in the Day-old Chick (DOC) program. These clubs raise and release pheasants on private land open to public hunting or on approved state-owned lands. For more information on the DOC program, please visit [dnr.wi.gov](#) and search keyword “[Game Farm](#).” Hunters are reminded to be polite and notify landowners before hunting on private property open to hunting as part of the DOC program.

## Properties planned to be stocked with pheasants in 2015

** A Pheasant Stamp is required statewide ** Anticipated 2015 stocking goals are the same as the 2014 goals **

Attention Hunters!

Look for these signs placed at many locations where Pheasant Stamp dollars were used to create habitat. Since Pheasant Stamp dollars can be used on both public and private land, be sure to get permission before entering any private land.

Be HIP!

If you think you may harvest any migratory game birds (such as dove or woodcock) while pursuing pheasants this fall, make sure you’re HIP-certified. Learn more about the Harvest Information Program by visiting [dnr.wi.gov](http://dnr.wi.gov) and searching for “[HIP Certification](#)”.
